### CAREER OBJECTIVE

To begin my career as a Flutter Developer by applying 2 years of practical learning and hands-on project experience. I aim to contribute to an organization where I can build real-world applications, grow my technical skills, and deliver high-quality results

### LANGUAGES

Hindi

Gujrati

English

### ★ ACCOMPLISHMENTS

#### **RMS Hospital**

A healthcare management application for patients and hospital staff, offering appointment booking, medical records access, and real-time notifications.

#### **Smart\_color\_Picker**

A Flutter-based Smart Color Picker app that detects colors from camera or gallery images in real time. It provides HEX, RGB, HSV values and lets users save, manage, and export color palettes using Hive

#### **Currency\_Converter**

A Flutter-based currency converter app that fetches real-time exchange rates through an API. It allows users to convert between multiple currencies with a clean UI and instant results

### FLUTTER TRAINING EXPERIENCE

#### **Flutter App Developer**

Flutterfire LLP

03/2023 – 03/2025 | Ahmdabad, India

- Completed professional Flutter training focused on mobile app development.
- Practiced building UI, responsive layouts, animations, and reusable components.
- Learned API integration, JSON parsing, error handling, and REST communication.
- Hands-on training in Firebase Authentication, Firestore, and Storage.
- Worked on multiple real-world style projects during training.
- Practiced state management like Provider / GetX (whichever you used).
- Improved debugging, Git usage, and app performance skills.

### Student\_Manger

A Flutter-based Student Manager app that allows teachers/admins to manage student records, attendance, and academic data efficiently. It features Firebase authentication, real-time database updates, and a clean, user-friendly interface
